To Whom It May Concern:

This letter concerns Docket # 98P-0151/CPI , the slaughter of downed animals. As a vegetarian I would like to see the slaughter of animals stopped, period; but since this will never happen, I would like to urge you not to allow downed animals to be dragged to their deaths. This dragging with chains or pushing with tractors has got to inflict unbelievable pain. I urge you to stop this practice immediately and to insure that all animals are killed humanely.

Sincerely

(Ursula K. Moses)
